## DREYFUS IS HOPEFUL.

Believes He Will Be Pardoned Some Time Next Month.

## VIEWS ARE DIVIDED.

Some Think the Verdict Just and Others Think to the Contrary—The Paris Exposition May Suffer From It.

Rennes, Sept. 11.—Dreyfus has borne the terrible shock with marvelous fortitude, one might almost say unnatural calm. Saturday he seemed stupefied when M. Labori communicated to him the verdict, but he has since rallied. He passed a quiet night and rose when his orderly brought him water at 5 o'clock Sunday morning, just as he did during the trial, when it was necessary.

Mme. Dreyfus and Mathieu. Dreyfus, his brother, visited him during the course of the afternoon, his brother, subsequently leaving for Paris.

The application to the court of revision was taken to him by M. Labori's assistant, and he signed it.

He is convinced that ten years' imprisonment to which he is sentenced will be wiped out by the five years of solitary seclusion he has undergone on Devil's island, and he expects to be released by Oct. 15, which will be five years from the date of his former condemnation.

The town Sunday was perfectly calm. There was not a sign of demonstration nor a cry against Dreyfus or the Jews heard anywhere. A number of people gathered to see Mme. Dreyfus visit the prison, but they were quite respectful.

The troops and masses of gendarmes who Saturday gave the center of Rennes the appearance of a military camp, have completely vanished.

So far as can be ascertained, military men are perfectly satisfied with the verdict, which they interpret as safeguarding the honor of the army and at the same time doing an act of mercy to Dreyfus who, they say, has sufficiently expiated his crime in the awful existence he passed on Devil's island. They point out that even if he is sent to Fort Corte, it will be to receive henceforth the humane treatment he has experienced since his return to France.

One strange fact is the extraordinary difference of opinion respecting the exact effect of the judgment—whether he can be degraded again and whether the five years' solitary confinement he has undergone will be regarded as equivalent to the 10 years' detention to which he is now sentenced and he will be released next month. This matter is quite aside from the general impression that he will be pardoned in a few days by President Loubet, who will find some ground to exercise clemency.

M. Demange thinks the five years will count for nothing and that Dreyfus, according to law, will have to suffer ten years' detention. Many others, however, including several lawyers, hold a contrary opinion and declare that he will be released in October.

### Bauvais Favored Acquittal.

Paris, Sept. 11.—One of the two members of the court martial who favored an acquittal is Captain Bauvais. Three names are mentioned for the other.

### Will Not Attend Exposition.

St. Louis, Sept. 11.—An informal meeting of the most prominent merchants in St. Louis was held Saturday afternoon shortly after the Dreyfus decision became known, and it was unanimously agreed that not one of them would attend the Paris exposition or make an exhibit. It was also decided that they would use their influence to deter others from attending or make exhibitions.

There were present at the meeting many leading members of the merchants' exchange.

### Boycott Proposals.

Rome, Sept. 11.—Proposals have been made to both Austria and Italy to boycott the Paris exposition as a protest against the verdict at Rennes.

Demonstrations in denunciation of the verdict occurred in several Italian cities. At Naples the demonstrators tried to attack the French consulate and the police were compelled to intervene.

### Esterhazy on the Sentence.

London, Sept. 11.—Major Esterhazy comments on the verdict in the Dreyfus case saying that Dreyfus was justly condemned as the inevitable result of the evidence collected by General Mercier. This, according to Esterhazy, bore conviction to the minds of the judges, and he added, the finding of the previous court martial declared Dreyfus guilty and me innocent. Continuing Esterhazy said: "I believe the sentence is in accordance with the understanding with the government. Dreyfus is in a position to claim the reduction of the sentence by one-half. The whole business was a farce, arranged in advance and doubtless he will soon be at liberty."

## THE FEVER SPREADING.

Invaded Florida and Louisiana, and Now Takes to Mississippi.

## OUTCOME WATCHED.

Mississippi Quarantines Against Louisiana—The Disease Spreading in Florida—Only One Case so Far at Jackson.

Jackson, Miss., Sept. 11.—The city council held a special meeting this morning and passed a resolution advising the people to keep quiet and not create a panic over the outbreak of fever like the one a year ago. The quarantine of the entire state against New Orleans went into effect at 12 o'clock today. All trains from that city now carry inspectors. The Illinois Central trains continue to stop at the Union depot to take on and put off passengers. Alabama and Vicksburg and Yazoo and Mississippi Valley trains stop outside the city where they are met by suburban trains for transfer of baggage and passengers.

Dr. Murray of the marine hospital service, expresses no doubt but that yellow fever is directly traceable to New Orleans.

City Clerk Porter is the only patient here. He is considerably better.

### YELLOW FEVER.

Three New Cases Develop Among the Passengers of the Lampasas.

New York, Sept. 11.—After his last visit to Swinburne island Sunday, Dr. Doty the health officer, said that J. M. Burley, who first showed symptoms of yellow fever Friday, was a verk sick man.

The doctor also stated that the three cases under suspicion Saturday unmistakably developed yellow fever. The patients are sisters, Anna and Minnie Zimetbaum, young girls, and F. A. Agolozoga, a young man. The condition of these three is encouraging. All the patients arrived on the Mallory line steamer Lampasas from Key West, an infected port, Thursday. Burley and Agolozoga are being treated with the Sanarelli serum.

### Died of Yellow Fever.

New York, Sept. 11.—J. H. Burley, who was removed from the steamer Lampasas at quarantine to Swinburne Island hospital Thursday, is dead. The body has been cremated. The other patients at Swinburne Island hospital are improving.

### One Death at Port Tampa.

Washington, Sept. 11.—Dr. Altree of the Marine hospital service, reports a death from yellow fever at Port Tampa City, Fla., an autopsy renders it certain that the original diagnosis of the fever was correct. Dr. T. J. Porter, at Port Tampa, says there is a panicky feeling there.

### Mississippi Quarantines.

Jackson, Miss., Sept. 11.—The state board of health Sunday night declared the state of Mississippi quarantined against New Orleans effective Monday at noon. The quarantine does not apply to freight and no fumigation of the mails will be required. All passengers trains will carry inspectors under the supervision of the marine hospital service and will be somewhat delayed.

### Situation at Key West.

Washington, Sept. 11.—The marine hospital service here has an official dispatch from Key West giving the total of yellow fever cases reported up to date as 155 with 10 deaths. The detention camp at Dry Tortugas is now in operation and refugees are being received and cared for there.

### Another Steamer From Florida.

New York, Sept. 11.—The Mallory line steamer San Marcos, from Key West Sept. 16, arrived at quarantine here. All are well.

### One Case at Jackson.

Jackson, Miss., Sept. 11.—One case of yellow fever in Jackson was officially reported to the state board of health Sunday afternoon. The patient is D. P. Porter, city clerk. Dr. Murray of the Marine hospital service, confirms the diagnosis and in his report to Surgeon General Wyman says that the case is of a very malignant type and the patient is not expected to live.

### Suspicious Cases.

Jacksonville, Fla., Sept. 11.—Dr. Porter, state health officer, has wired that there are several suspicious cases of sickness at Port Tampa, supposed to be yellow fever, and one death. The death and suspicious cases are at the hospital in Port Tampa City, nine miles from Port Tampa. A dispatch from a representative of the state board of health at Tampa says there are no suspicious cases there.

### Killing Near Kerens.

Corsicana, Tex., Sept. 11.—Sheriff Allen and Marshal Cole both received telegraph messages stating that there had

**Jno. B. Mike,**

"THE ORIGINAL KUTTER."

been a killing near Long Prairie, south of Kerens. Dick Holland, a well known farmer was shot and killed and his slayer at last accounts still at large.

### Delegate Arriving.

Chicago, Sept. 11.—Delegates are already beginning to arrive to attend the sessions of the conference on trusts and combinations which begins Wednesday. Chairman Martin Knapp of the interstate commerce commission is the first prominent participant to register.

### Other Evidence Secured.

New York, Sept. 11.—A special from Washington says that Count Sergey Smolinoff, an American citizen for a number of years, but a Russian by nativity, who possessed a large entailed estate in Russia, is at this time a civil engineer by occupation and a well known inventor of explosives, asserts that a few years ago when he passed some time in Paris for the purpose of selling smokeless powder to the French government, he was put in communi-

### IMPROVED COTTON.

#### Reports From Farmers Who Have Tried Eagle Cotton Seed.

The Eagle has frequently reported the remarks of many of the farmers who tried improved cotton seed given out by us last spring for trial by farmers in this section. We now print the observations of our traveling man, who in his rounds visited some of the places where the cotton is planted.

J. V. Rosprim of Providence, planted the Peerless cotton seed, and says he does not like it. It has turned out a good yield for such a dry season, but not as good as his own cotton, the Bohemian. His objections to Peerless are: Small bolls, and no top root to go down after moisture. He thinks it will not stand the drouth.

Mr. E. Gandy of Rock Prairie, tried the Sure Fruit variety, one of those given out by The Eagle. He is well pleased with it. Says it is the best cotton on his place—was planted later than the other varieties. It has smaller bolls than his Bohemian cotton, but has a great many more to the stalk than Bohemian—nearly twice as many. It is shoulder high on a sand hill. He estimates that the small amount planted will turn out at the rate of

1500 pounds per acre, seed cotton.

Mr. R. A. Clark of Brightlight, has Sure Fruit. He has tried 12 different varieties of cotton in his time, and finds Sure Fruit the best he ever tried. He has picked 120 pounds and will get as much more. It is planted alongside of the Jones cotton, and the Jones is waist high, while the Sure Fruit is shoulder high. Mr. Clarke says the Sure Fruit has proven to be both drouth proof and rust proof. The Jones cotton has rust badly, while the Sure Fruit, right by it is free from rust, which is a great fault of cotton in this section. Peerless, he says, has light seed, and thirds itself at the gin. He is going to have it ginned and weighed and report to us how it turns out. He is enthusiastic about the Sure Fruit, and will save his seed for next year. The Eagle got a good photo of this cotton as it stands, and we design having a cut made to illustrate the appearance of this fine cotton as it stands in the rows, along side the Jones cotton.

Mr. H. L. Wilson of Tabor, called at The Eagle office and told us he was highly pleased with the cotton which he tried and will later give us an account of the returns.

Tom Smith, of Millican, was in the city yesterday evening enroute to Conroe. He was accompanied by his sister Miss Beuna, who was on her way to Trinity to attend school.—Navasota Examiner.

A girl in North Austin chased a bumble bee for an hour the other day thinking it was a kissing bug. She finally caught it and now she can only see out of the northeast corner of her south eye. It makes her mad to even mention the matter.—Austin Tribune.

### DISTRICT COURT.

The jury for the present week in the district court was dismissed yesterday morning. The court is occupied with civil business.

The following divorce cases have been disposed of indicated:

Josephine Robinson vs. Frank Robinson, divorce granted.

Bedford Foley vs. Billy Foley, divorce granted.

Eliza Neal vs. Robert Neal, divorce granted.

Paralee Ellis vs. Jesse Ellis, divorce granted.

Emma Readman vs. Mayo Readman, divorce granted.

Rosa Immetti vs. Joseph Immetti, divorce granted.

### DESPERATE FIGHT.

Attempt of Officers to Capture a Man Results Fatally.

Columbus, O., Sept. 11.—A desperate fight took place Sunday afternoon between Charles Dumont, an ex-convict, and Detective Abe Kleeman and Patrolman George Gaston. All were wounded, Dumont dying within a few hours. The officers were waiting for Dumont, who was wanted for burglary. When he came along on a bicycle, the officer called upon Dumont to stop, but he pedaled on, at the same time drawing a revolver and shooting over his shoulder at his pursuers. Patrolman Gaston was the first to go down with a bullet in his head and another in his arm. Dumont lost his balance and fell from his wheel, but quickly sought refuge behind a telegraph pole and continued the fusillade with Detective Kleeman. Dumont received three wounds in the body. Kleeman has a serious wound in the side.

### EXCITEMENT PREVAILS.

Pretoria Worked up Pending the Decision of The Transvaal Cabinet.

Pretoria, Sept. 11.—Excitement prevails here pending the decision of the cabinet. Secretary of State Reitz has left the city for Johannesburg and Cape Town. The likelihood of war is much discussed. The coming of British troops is not regarded as meaning certain war, but merely making up for the paucity of troops in South Africa. This has been much commented upon during the past month.

### Woman Kills a Negro.

Little Rock, Sept. 11.—Mrs. John Welch, a respectable white woman of Morrilton, killed a negro named Dave Bryan. Mrs. Welch, who is a widow, was at home by herself, her son being away from home on business. She discovered the negro in her yard. She armed herself with a revolver, and stepping to the door she ordered the negro to leave. Instead of doing so he advanced upon Mrs. Welch. She thereupon fired three shots, one of which took effect, killing him almost instantly. Public sentiment justifies Mrs. Welch in the course she took. A coroner's inquest was held and a verdict of justifiable homicide returned.

### The Remains of Eustis.

Newport, Sept. 11.—The funeral of James B. Eustis, former United States ambassador to France, and who died on Saturday, will take place this evening at 7:30 o'clock from the home of deceased on Eastis avenue. A short Episcopal service will be conducted, and then the body will be taken by boat to New York and thence to Louisville, Ky., where it will be buried beside the remains of Mrs. Eustis.

### Killed in a Runaway.

Waco, Tex., Sept. 11.—P. J. Flack, a well to do farmer living near McGregor, was thrown from his wagon and killed here. Mr. Flack was driving into town with his family when the team became frightened and ran away. Mr. and Mrs. Flack were thrown out of the wagon and the former received injuries which resulted in his death in a half hour. Mrs. Flack was injured slightly.

### Drouth Ties Up Street Railways.

Austin, Tex., Sept. 11.—As the result of recent drouths in this section of the state, the City Electric company, depending entirely on water power for operation, notified the Street Electric Car company that, owing to inability to secure water to operate the plant, it will discontinue to serve the street car company. This ties up all car lines in Austin for an indefinite time.

### Choked Himself to Death.

Jefferson City, Mo., Sept. 11.—Andrew Kraus, a convict, sent from St. Louis to the penitentiary in 1895, under sentence of 15 years for burglary and larceny, committed suicide in a cell at the prison by choking himself to death with a short piece of rope. He was about 28 years old, and had been despondent for several days.

### Resigned His Office.

Washington, Sept. 11.—Frederick P. Metzger, chief clerk of the general land office, has resigned and his resignation has been accepted by Commissioner Hermann. Mr. Metzger was appointed to the land office from Kansas. Poor health was assigned as the reason for his resignation.

### Government Buys Cattle.

Coffeyville, Kans., Sept. 11.—The war department has purchased 4000 head of cattle from the Jennings herd in the Indian Territory, south of here. The cattle will be shipped to the army in Cuba. The first carload of them was shipped Saturday and the others will be shipped this month.

### The Convention Postponed.

Atlanta, Sept. 11.—On account of the prevalence of yellow fever the New Orleans convention of commissioners of agriculture of the southern states, which was to have been held there on Sept. 20, has been postponed until Oct. 24, when it will be held in Atlanta.

### Senator Reaches Manila.

Manila, Sept. 11.—The transport Senator has arrived here. One casualty, William B. Goldthwaite, died at sea; body embalmed and brought here. The senator carried 10 officers and 660 recruits.

### Steamer from Alaska.

San Francisco, Sept. 11.—The steamer Homer arrived here from Cape Nome via St. Michael Sunday, bringing \$200,000 in gold dust.

### The Wheat Crop.

Washington, Sept. 11.—The agricultural department gives the condition of wheat as 63.5 compared with 84 last month.

There were two additions to the church. A protracted will begin at this church Sunday, October 8.

Miss Lillie Hires, the accomplished milliner at Gilmore's, has returned to Bryan after spending several weeks selecting an immense and beautiful stock of fall and winter millinery which will shortly arrive and be ready for the trade.

A colored school house—recently built six or seven miles north of town, was burned early Sunday morning, and two negroes have been lodged in jail here for alleged connection with burning which will be investigated by the authorities.

To the Voters of Bryan.

Owing to circumstances over which I cannot at this time exercise any control and for reasons not necessary to mention, I respectfully withdraw from the race for the mayoralty of Bryan. To those who have in the past so generously supported me in all of my political aspirations and those who have so kindly proffered me their support in the present race, I shall ever cherish the warmest feeling.

W. H. HARMON.

1899.

BRYAN MERCHANTS.

Again Reaching out for Business—What They Have Done.

From the Madisonville Meteor.

With the opening of the fall business the number of advertisements in the Meteor from the Bryan merchants is increasing every week. They have an unbroken record of many years standing for enterprising methods in reaching out after trade which the people appreciate and can not soon forget. They never tire, in season or out of season, of extending the invitation to come and see them and look at what they have to offer in all lines.

Bryan has already received this season considerably over five thousand bales of cotton in spite of the flood and the drouth shortages. Last season she received about forty-two thousand bales. These figures speak for themselves in showing how Bryan is appreciated as a cotton market and trading point.

No county in the flood district perhaps suffered more heavily than Brazos in the loss of bridges by the flood, yet no county has more quickly recuperated. The bridges have nearly all been replaced and the county has inaugurated the system of working her convicts on the roads and bridges. The convict force has been busy the past week replacing the Bundick bridge across the Navasota river, the expense of which is shared by this county. The "Long Bridge" or trustle on the North Grimes road will next receive attention and be put in shape. Independent of the work done by Brazos county the Bryan merchants have done much to improve the roads and bridges. They have not only subscribed money, but at times have gone out and camped to supervise and help with the work. Among the notable things they have done recently was the grading down of a sand hill on the west side of the Navasota river on the Madisonville and Bryan road.

The Bryan business men have not only shown their appreciation for years by advertiseing and other enterprising methods, but they have come in person to the re-unions and on other occasions yearly, and by mingling with the people have formed ties that are not measured by trade-getting. There is no doubt in our minds but that Bryan merchants will ever profit by their hustle and enterprise.

### City Tax Valuations.

City Secretary H. G. Rhodes has completed the tax rolls for 1899. They are admirably gotten up and shows the following totals:

Number hogs 22, value \$24.

Number of horses and mules, 345, value \$9075.

Number of dogs, 23, value \$345.

Goods and Merchandise, \$198,270.

Manufactured articles \$100.

## THE KEARSARGE'S TRIAL.

That Great Battleship Will Make Her Official Trial Trip on Sept. 25.

Washington, Sept. 11.—Acting Secretary Allen has approved the request of the Newport News company that the battleship Kearsarge undergo her official trip on Sept. 25. This action was taken upon the recommendation of Admiral Hichborn, who has received reports from Naval Constructor Woodward and the company regarding the present progress of the work. Mr. Woodward reported that the 8-inch and 13-inch guns and the armor for their turrets are now in position as well as the other armor for the vessel.

"With due vigilance," Mr. Woodward says, "I believe it possible for the contractors to complete the installation of the current turning controller for the forward turret so that it may be rotated while at sea. It would appear that the condition of the vessel when submitted by the contractors for her official trial will be as required by the department in its endorsement to the effect that all the turrets and turret guns must be in place before trial. It would further appear that the condition of the vessel would be such as to confirm the opinion as to her behavior and strength in a sea when examined by a trial board on her official trial. It must be understood, however, that the vessel cannot be described as practically completed."

The department has designated a course of 33 miles long, off Cape Ann, Mass., for the speed trial, during which the Kearsarge must make an average speed of 16 knots per hour for four hours. If accepted, the work remaining on the ship will be rapidly completed, in order that she may be placed in commission next month.

The battleship Alabama will probably not be placed in commission before the next year. The last group of casemate armor was accepted several days ago and will have to be put in position, but her turret armor has not yet been delivered. In fact the ballistic trial of this group will not occur for a month.

### Labor in Navyyards.

Washington, Sept. 11.—Acting Secretary Allen has issued an important order respecting the employment of labor at the navyyards. The orders contemplate preference being given in the future to men who underwent their apprenticeships in the government yards. When the apprenticeship was first established this was intended, but different rulings were made by different administrations and, except with respect to the men trained in the Washington gun foundry, little attention has been paid to a man's statement that he served his apprenticeship in a yard.

Instructions have been sent to Commander B. F. Tilley, commanding Abner, directing him to proceed to any point he may think proper to secure suitable piling for the pier to be constructed at Pago Pago, Samoa.

### Wealthy Men's Taxes Raised.

Tuscola, Ill., Sept. 11.—It has been discovered that men who are worth from \$5,000 to \$100,000 have been escaping tax assessments for several years, and when the board of review, which adjourned on Sept. 7, discovered and placed on the assessment rolls \$475,000 in Tuscola township alone, there was a considerable complaint among those hit the hardest, and they announced their intention of contesting the validity of the law. In Douglas county the total amount discovered and added is \$575,000. The big leak was found in this township, however, and some of the wealthy men are agitated.

### Presented a Sum.

Gibraltar, Sept. 11.—Before sailing from here Sunday afternoon for New York, Admiral Dewey and officers of the United States cruiser Olympia, presented £30 to Peppiatt, the gunner of the British battleship Devastation, who while the warship was firing a salute in honor of the arrival of the American admiral on Sept. 4, had his hand shattered by the explosion. Peppiatt's arm was amputated.

### Preparing for War.

London, Sept. 11.—The activity in the war and admiralty offices continue, though there is nothing new regarding The Transvaal situation. It is said an order has been sent to America for light iron grinders and bridging sections for probable use in South Africa. Transports are moving to the docks, preparatory to embarking troops.

### Must Remain Two Years.

New York, Sept. 11.—Owing to the laws of Mexico prohibiting the removal of bodies from that country until two years after death, the body of Frank Ives, the former champion billiard player, who died at Progresso, cannot be brought here for burial. Ives, who was suffering from consumption, died in the harbor of Progresso on board the steamship Yucatan on Aug. 30.

### Woman Seriously Burned.

St. Charles, Mo., Sept. 11.—Mrs. Nellie Battezzor, wife of Henry Battezzor, saturated her clothing with coal oil and set fire to them with suicidal intent. Her husband in his efforts to extinguish the flames was badly burned about the hands and arms. About one-third of Mrs. Battezzor's body is severely burned, and her injuries are so serious that it is feared they will prove fatal. Family troubles are said to have been the cause of her act.

### Rain Allays Famine.

Bombay, Sept. 11.—Rain has improved the crop outlook in western India and the fears of a famine have been removed. The weather conditions forecast more rain. The cotton crop has also been benefited.

tion with Colonel Du Paty de Clam. He says that that virtuous man demanded 4,000,000 francs for his share in promoting the sale, and an additional 2,000,000 francs for his nephew, then the minister of war. The price to be secured from the government being 12,000,000.

### Boycott Proposed.

Rome, Sept. 11.—Proposals have been made to both Austria and Italy to boycott the Paris exposition as a protest against the verdict at Rennes.

Demonstrations in denunciation of the verdict have occurred in several Italian cities.

At Naples the demonstrators tried to attack the French consulate and the police were compelled to intervene.

### Esterhazy Challenged for a Duel.

Kansas City, Sept. 11.—Captain Thos. Phelan, the broadswordman and pistol shot, has issued a challenge to Count Esterhazy to fight a duel in defense of Dreyfus.

### Dreyfus' Conviction Condemned.

London, Sept. 11.—The afternoon newspapers of this city are unanimous in their denunciation of the verdict of the courtmartial of Dreyfus and they are teeming with abuse of the system of "producing such a decision."

### Hurting the Paris Exposition.

Berlin, Sept. 11.—It is rumored a committee of leading manufacturers is being formed for the purpose of preventing any German participation in the Paris exposition.

### Appeal for Dreyfus' Pardon.

Chicago, Sept. 11.—The James A. Garfield lodge, No. 37, Independent Order of Western Star, directed Secretary Hersfeld to send a call to all grand lodges of the order for a united appeal to President McKinley, requesting him to use his influence in securing a pardon for Captain Dreyfus. The order has 6000 members and Secretary Herfeld expects a unanimous vote in favor of the appeal.

### Attacked the French Consulate.

Buda Pest, Sept. 11.—A crowd of several hundred people made a demonstration Sunday evening in front of the French consulate here. They were dispersed by the police and approaches to the consulate were occupied by policemen in order to prevent further demonstrations.

### EXPRESS TRAIN ROBBED.

Four Men Use Dynamite and Take All Valuables in Sight.

Cochise, A. T. Sept. 11.—Express train No. 10 on the Southern Pacific was robbed here Saturday night by four masked men, who blew the safe open and took everything in sight. The amount of their booty is said to be small. The train was stopped, the engine, mail and express cars were cut off from the rest of the train and run a mile up the road, where the bandits stopped to complete their work.

The express messenger was forced to open his car and the robbers attacked the safe with dynamite. The strongbox was soon blown open and the contents taken by the thieves, who hastily departed. They were last seen going north on foot and a posse soon started on their trail. The dynamite used on the safe blew out the side of the express car and tore up the floor. There is no clew to the identity of the robbers.

### The Fall of Dawson City.

Dubuque, Ia., Sept. 11.—Arthur Williams, son of Capt. V. J. Williams of this city, has returned from the Klondike, where he has been since a year ago last January. He is located at Dawson City, and interested in a number of claims. He has a partner who works the claims, while he is in the employ of a St. Louis commercial firm, and receives \$15 per day. He says that Dawson City, which at one time had a population of about 40,000, has dwindled down until now it has not more than 8000. He says also that many of those who are at Dawson and other places in the Klondike regions are experiencing very hard times. But he thinks it is a better place for vigorous young men than in the states.

### Killed by a Shark.

Waco, Tex., Sept. 11.—Paul Guyot, a most exemplary young man and a former resident of this city, was killed by a shark in the bay at Tampico several days ago. A letter from Mr. Montgomery, also a former resident of this city, tells of the sad death. It seems young Guyot and several friends were swimming, he being some distance from the others. He was heard to cry out as if in agony, but before help could reach him he sank out of sight. The body was recovered later and from marks on it, there is no doubt he was killed by a shark.

### Returns His Commission.

Chicago, Sept. 11.—Ex-Governor John P. Altgeld has returned to Governor Tanner the commission appointing Mr. Altgeld as a delegate to the trust conference in Chicago, Sept. 13. As to his reasons for this step, Mr. Altgeld said: "The fact is, I have not much confidence in the proposed trust conference. It looks to me as if it were going to be more of a trust love feast than anything else."

### Joe Patchen Sold Again.

Johnston, Pa., Sept. 11.—H. Y. Hawes of this city, has sold the famous racer, Joe Patchen, to Senator McCarthy of Goshen, N. Y. Hawes paid about \$20,000 for Patchen a few weeks ago in Cleveland. It is understood that the price paid by Senator McCarthy was in excess of what Hawes paid. Senator McCarthy will retire Patchen and put on his stock farm near Goshen.

### Dewey Sails for Home.

Gibraltar, Sept. 11.—The United States cruiser Olympia, with Admiral Dewey sailed Sunday afternoon for New York.

## OTIS' CAMPAIGN.

Plans for His Raid Upon Aguinaldo Are About Completed.

Washington, Sept. 11.—Considerable progress has been made by General Otis upon the plan of the campaign he will inaugurate immediately upon the beginning of the dry season. To prevent similar preparations being made by the insurgents and perhaps as a forerunner to the comprehensive operations to occur when the conditions permit, an offensive movement by the commands of Major Generals MacArthur and Lawton will begin at once. It had been expected that this movement would begin last week, but evidently either the preparations had not been completed or the elements have prevented, for up to this time, so far as the department has been advised, nothing has been done. The officials are hourly in expectation, however, of advice showing that the columns under the command of the officers named, have begun a new campaign against Aguinaldo's troops.

General Otis proposes to divide the army of 64,649 combatants and the mountain batteries and dynamite guns which he will have in December into two divisions, commanded by MacArthur and Lawton. One of these will operate to the north of Manila and the other to the west and south. Each division will operate in two military provinces to be defined by General Otis, but there will be effective and prompt cooperation when it is desirable. It is expected that each commander will have six brigades under his command, the remainder of his troops being employed to garrison Manila and other seaport towns through which the insurgents are receiving supplies. Lawton will be required to make quick movements and it is proposed to place the cavalry brigade under his command. The navy and marine corps will also be doing effective work.

It is understood to be the intention of the administration to enforce a strict blockade of the Philippine ports. This action has been considered upon the recommendation of Rear Admiral Watson, who has called attention to the amount of supplies which the insurgents have been receiving. The blockade, which will be enforced, will be municipal in character so as to prevent any foreign nation seizing upon the blockade, if it were formally declared, as a pretext for the recognition of the Filipinos as belligerents.

There have been consultations between Rear Admiral Watson and Gen. Otis, respecting the operations to be conducted by the marines, and it is expected here that they will be given the province of Cavite in which to operate. Cavite is the hot bed of the insurrection and the work of the marines will have to be supplemented by the army, but the use of Colonel Pope's command will make possible the concentration of practically the entire military force in subjugating Aguinaldo.

It is apparent from the plan of campaign prepared by General Otis that his duty will be more of a supervisory and supplying character than anything else. He will remain in Manila sending supplies and troops to the front and keeping the two divisions in the best possible condition, but the military operations will be directed by the division commanders. Of course General Otis will be charged with the responsibility, but it is evident that the administration is quite satisfied to trust the conduct of the field operations to Generals MacArthur and Lawton.

### MARCONI COMING.

He Will Test Wireless Telegraphy With Rear Admiral Bradford.

Washington, Sept. 11.—Rear Admiral Bradford, chief of the bureau of equipment, has been informed that Signor Marconi will come to Washington to discuss with him the proposed experiments with wireless telegraphy. The purpose of Signor Marconi is the result of a conference held with him by Lieutenant Commander J. C. Colwell, stationed in London as naval attaché of this government. According to Rear Admiral Bradford's understanding Signor Marconi will bring with him a complete wireless telegraphy equipment. The inventor is expected to arrive in the course of a few weeks.

Admiral Bradford will recommend that one of the vessels of the navy be set aside for the experimental work. It is proposed to place the receiver on shore and the warship will communicate with it from varying distances. By this means it is believed the system can be developed and the value of it can be definitely determined.

### Part of Cabinet Resigns.

Sydney, N. S. W. Sept. 11.—Rt. Hon. George Houston Reid, premier, treasurer and Minister Radway and other members of the cabinet have resigned in consequence of a resolution declaring a lack of confidence in the ministry. The resignations of the ministers was accepted and Mr. Lyne, leader of the opposition, has been summoned to form a new cabinet.

### Wrecked Train Arrived.

Los Angeles, Cal., Sept. 11.—The west-bound Southern Pacific express which was held up near Conchise, arrived here on time. The express car was a wreck and shows the effect of the dynamite used by the robbers. How much they secured is not known, but the amount is not believed to exceed \$10,000.

### Filipino Mayor Skips.

Manila, Sept. 11.—The mayor of Imus has disappeared and it is supposed that he has joined the rebels on the promise of receiving a generalship. He was a colonel in the insurrection of 1897.
